The purposes of this ride and other rides across the nation are:

- To HONOR and for those who have been injured or killed
- To RAISE AWARENESS that we are here
- To ask that we all SHARE THE ROAD; that drivers recognize that there's room for all of us out here, and that a bicyclist may be around the next corner and has every right to be.

We are looking for respect, not retaliation; for visibility, not vengeance. Let us show how to share the road by a positive example. Please follow the rules of the road. Ride as you would in a funeral procession; ride predictably. Those that have lost someone in a bike/car crash should wear a **black armband**. Those that have been injured, but continue to ride should wear a **red armband**. Non-cyclists that would like to support the ride are encouraged to gather in the starting parking lot for a silent candlelight vigil that will last the duration of the ride.

Point out potholes and road hazards; signal turns and if you slow down. Momentary inattention is the number one cause of accidents -Be aware of what is in front of and BEHIND you, watch your line, and keep your hands near your brakes.

We are riding as a group, **silently** but use your judgement regarding both. Allow for breaks in the group when it makes sense.
